

Masquerade & Indulgence, The Leather Alternatives

Martin Brattrud's Masquerade and Indulgence Collections offer a compelling, eco-friendly alternative to leather for the contract environment. Beautiful, breathable and highly durable, these faux leathers replicate the rich color and luxurious feel of real leather upholstery. Strong, supple, and stain resistant, they are ideal for high traffic applications. Manufactured free of PVC and plasticizers, Masquerade and Indulgence are responsibly aligned with contract standards for indoor air quality. Made in the USA.
