Technical Data & Maintenance

| | |
|-------------------------|---|
| Content | 100% Top Grain Leather Lightly Enhanced Grain European Raw Material |
| Hide Size | 55 sq. ft. |
| Weight | 2.5 – 2.75 oz per sq. ft. |
| Thickness | 1.1 mm +/- .1mm |
| Finish | Semi-Aniline Water based protected top coat |
| Abrasion | Wyzenbeek 30k |
| Color Fastness to Light | AATCC16 – 72 Hours Grade 4 – 5 |
| Crocking | AATCC 8 Dry – 5 Wet – 45 |
| Flame Resistance | Passes California Bulletin 117 BFD 1X-1 Boston Fire Dept. NFPA 260 |
| Natural Markings | All Martin Bratrud Leathers are genuine. As fine leather they bear characteristics of natural origin. These markings in no way detract from durability or performance; rather, they are an assurance of luxurious natural beauty and lasting value. |
| Maintenance | <p>Leather is a natural product that requires very little care. It is inherently resilient and durable needing little maintenance. In fact, the best maintenance for leather can be use. Occasional dusting with a dry cloth should be all that is necessary to clean and maintain it.</p> <p>Never use saddle soap, feeders, cleaners, polishes, oils, varnishes or ammonia. These products are not made for fine upholstery leather.</p> <p>A professional leather cleaning service may be consulted.</p> |
