

Ojai and Lundin

by Martin Brattrud

HPD UNIQUE IDENTIFIER: 36137151
HPD UNIQUE PRODUCT ID: Not provided.
CLASSIFICATION: 12 50 00 Furniture
PRODUCT TYPE: Commercial Furniture

PRODUCT DESCRIPTION: Martin Brattrud Ojai and Lundin tables are handcrafted steel-frame occasional tables for commercial environments, available as side and coffee tables in round, square, rectangular, and racetrack shapes and in low and high heights. Every table style is built to order and fully customizable in top material and finish — clear, smoked, bronze, or specialty glass (Ojai); maple veneer, glass, Corian®, laminate, or stone (Lundin) — on powder-coated steel frames, with Ojai feet available in powder coat, brushed aluminum, or solid wood. Coordinating Lundin upholstered benches on matching steel bases allow the series to be specified as a complete occasional grouping. Textiles are out of scope of this declaration.

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
- Nested Material Inventory method with Product-level threshold
- Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 3.0, available on the HPDC website at: www.hpd-collaborative.org/hpd-3-0-standard

METAL ALLOY HPD: See alloy HPD for alloying content inventory, GreenScreen scores, and hazards: [UNS A5XXX]

METAL ALLOY NOTES: In compliance with HPDC Special Conditions Policy for Metal Alloys, the listed alloy is considered the ingredient in this product, and is reported without information regarding its alloying elements. Metal alloys have different intrinsic characteristics, including health and environmental hazards, than their alloying elements. An alloy HPD with alloying element content inventory, their GreenScreen scores, and hazards is available at the link above.

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard is not:

- a method for the assessment of exposure or risk associated with product handling or use,*
- a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.*

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.

The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and for compliance with the HPD standard noted.
